New hopper brooms ▲ for skid-steer loaders

CEAttachments' EDGE hopper brooms perform well in milling applications, material pickup, parking lot and road maintenance, and job-site cleanup. Features include front and side steps for easy access to and from the cab, a front bumper and no caster wheels, allowing you to get close to objects without damaging the broom. These single-motor brooms are available in 60-, 72- and 84-inch widths.

Brush cutters safely, ▲ quickly clear debris

The Bradco line of brush cutters from Paladin Construction Group easily attach to most skid steers and are designed to cut grasses, weeds, brush and trees up to 4 inches in diameter. High deck clearance, side discharge, flow control baffle and a smooth unobstructed deck improves performance by preventing debris build up. The brush cutters are available in 60- and 72-inch standard flow hydraulics, and 60-, 72- and 78-inch high-flow models.
