XTREME CHARGE™ BATTERY CHARGER

(\$99.95) The Xtreme Charge™ five-stage maintenance battery charger works with any 12-volt lead acid battery, including traditional and high performance batteries. Using PULSE technology, the Xtreme Charge extends the life of new and old batteries by minimizing the size of lead sulfate crystals. It's fuse-protected, spark proof, and UL certified for both indoor and outdoor use. Xtreme Charge/PulseTech Products Corp., (800) 580-7554, xtremecharge.com.

Debra Bergh, Merrill, WI: "This product is great! It's easy to understand and the size is perfect."

James Jarnecke, Valparaiso, IN: "I would recommend the Xtreme Charge™ to anyone with a traditional trickle charger because of its size and ease of use. The LED readout feature tells you right away whether the battery is worth charging or if it needs replacing and it also lets you know exactly what stage of charge your battery is at."

RATING	Ease of Use	10
	Size	9.8
	Quality	9.3

FLUID FILM®

(\$8.75) Fluid Film® corrosion protectant-lubricant protects your vehicle against exposure to the elements that can lead to rapid deterioration of metal. Fluid Film's molecular structure stops rust on contact, penetrates existing rust, and embeds into the pores of metal, creating an active barrier of protection. Fluid Film® is safe for all metals, will not damage paint, plastic, or rubber, and is non-conductive. Fluid Film, (888) 387-3522, fluid-film.com.

Robert Neagle, Fuquay Varina, NC: "Fluid Film® does a great job loosening rusted bolts, tailgate hinges, and my garage door wheels. In addition, Fluid Film's non-solvent lanolin base is safe for the environment with a low VOC content."

Shawn Clifford, Moncks Corner, SC: "I have used Fluid Film® to free up rusted bolts, as a preventative rust inhibitor on my tools, and as a lube for a motorcycle chain that was making noise."

RATING	Performance	9.2
	Ease of Use	9.4

INVISIBLE GLASS WITH RAIN REPELLENT

(\$5) Developed for exterior vehicle glass, Invisible Glass with Rain Repellent sheds rain, snow, and ice to help you see through windshield glass with "invisible" clarity. The powerful cleaner removes dirt, dust, sap, grease, adhesives, pollutants, and other oily grime with ease. And, unlike some other cleaners it contains no dyes or foamy soap, leaving your car's glass streak-free. Stoner Inc., (888) STONER3, invisibleglass.com.

RATING	Performance	9.1
	Quality	9.0
	Ease of Use	9.2

Jeff Hovart, Gibsonia, PA: "This is a great product and does everything the label promised. Application takes only a minute or two, and it doesn't wear down quickly. It repels rain at 60 mph with no windshield wipers running; even in a downpour the rain just blew right off."

James Breitbach, Lake Villa, IL: "Invisible Glass did an excellent job of cleaning my windows without streaking. After applying Invisible Glass, rain water poured off my windshield without ever turning on my windshield wipers."
