Powerful Protection & Lubrication

- ✓ Eco-Friendly
- ✓ No Solvents
- ✓ Non Toxic / Non Hazardous
- ✓ Longest Lasting Performance
- ✓ Easy to Apply

Pit Stop

MAINTENANCE

Fluid Film Truck Applications:

Vehicle undercoating, battery terminals, electrical connections, chassis, grounding points, starter terminal, door frames, wheel wells, dump boxes, spreaders, truck frames, suspension parts, trailer attachments, fifth wheels, plow blades, shipping of parts, storing of parts, bolts, hinges, locks, chrome.

Use on all metal parts exposed to atmospheric and salt corrosion.

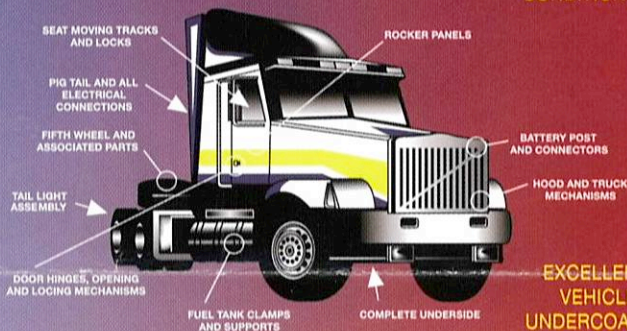

STOPS CHROME FROM PITTING AND ALUMINUM FROM OXIDIZING

STOPS THE HIGHLY CORROSIVE ACTION OF SALT, CALCIUM, CHLORIDE, FERTILIZERS, HERBICIDES, AND PESTICIDES ON ALL METAL SURFACES

COAT FLOOR/SIDES OF TRUCK BOX BEFORE INSTALLING BED LINER

KEEPS ICE/SNOW FROM BUILDING UP ON MOVING METAL PARTS. WORKS IN SUB-ZERO WEATHER CONDITIONS

EXCELLENT VEHICLE UNDERCOATING CORROSION PREVENTATIVE

Leading the Battle Against Corrosion

Fluid Film's unique molecular structure stops the highly corrosive effects of salts, calcium, chlorides and fertilizers on all metals. Containing no solvents, Fluid Film will not evaporate, wash off or freeze. Excellent for use as an ice inhibitor and as a release agent for salt in dump boxes. Safe on paint, plastics and for use on electrical connections. Solvent free Fluid Film provides lasting, tack free lubrication. **Always Active - Does Not Dry Out.**
