NEW PRODUCTS

Continued from page A18

No More Messy Cores

JRCO's 5-foot Hooker tow-behind aerator features tine rotors that

utilize the forward force of the vehicle to make holes up to 3 inches deep. The Hooker pulls loose plugs of soil, eliminating messy hard cores and core harvesting, allowing fairway aeration without closure.

Free info! Circle 706 on the card.

Protect Plants From the Cold

Jack Frost Foam protects plants/crops by placing an insulating foam blanket over them, (called Botanical Insulating Foam). From Chemical Containers, Inc., the blanket keeps heat in and cold out. The American Ag Foam's formulation creates foam that quickly sets a strong protective outer layer as the temperature drops, and it can withstand wind up to 12 miles per hour with little surface sheering occurring.

Free info! Circle 705 on the card.

Smooth Operation

The 25 hp diesel-powered Grasshopper MidMount Model 325D features a DuraMax deck, which creates a manicured look in a wide variety of conditions. Optional PowerVac collection system, mulch package, edger, dethatcher and shielded sprayer available.

Free info! Circle 701 on the card.

Turf's Greenest Sprayer

Pumpteck's 80812 model electric sprayer can be used day or night. It features a tough, durable tank with no gas emissions.

Free info! Circle 708 on the card.

AERA-vator Advantages

The walk-behind AERA-vator from First Products is available in a 30-inch width for smaller lawns and a 40-inch width for commercial use. An optional seedbox is available for use in both forward and reverse. A ride-on platform is standard. A 21 hp Vanguard engine for speeds up to 5 mph and a 180-degree turning radius.

Free info! Circle 703 on the card.

Fluid Film

Eureka Chemical has been in business for 55 years. Its Fluid Film product line features a lanolin base, which locks out and displaces moisture, preventing oxidation on metals for long-term lubrication.
